ADDIS ABABA, ETHIOPIA

To Whom It May Concern.

Bricsa Consulting is hosting the 7th Annual East Africa Transport and Infrastructure Conference which is scheduled on 20th-21st April 2020 in Addis Ababa, Ethiopia.

As you are well aware, Ethiopia is currently undertaking home-grown economic reforms, and to have an effective reform, the role of the transportation sector is vital.

In this regard the Ministry of Transport is planning to undertake several initiatives to increase the country's transport infrastructure networks, including construction plan of over 200,000 kilometers of roads across the country in the coming ten years.

In addition, the need of public transport is increasing and thus the sustainable development of road, rail and air has been going on in different perspectives. The development is much needed for the citizens of the country and the improvement of trade as well.

The Ministry of Transport would be glad to support Brisca Consulting for planning to undertake this important conference in Addis Ababa to witness the reforms being undertaken and to share exchange of ideas and fruitful discussions with public and private sector experts who are part of the ongoing development from Ethiopia as well as other African countries and rest of the world.

During the event, Her Excellency Mrs. Dagmawit Moges would make opening remarks and delegates from the Ministry and other concerned offices would attend and share their expertise. We are also highly indebted for being your supporting partner of the event and we wish you a successful event.

Looking forward to welcome you in Addis Ababa!

With Regards,

*Geremew Zeleke Alsema*
