To Whom It May Concern

Bricsa Consulting is hosting the 7th Annual East Africa Transport and Infrastructure Conference which is scheduled on 20th-21st April 2020 in Addis Ababa, Ethiopia.

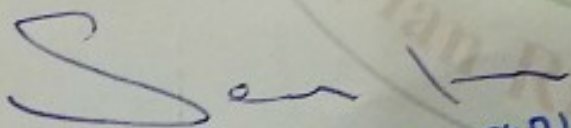

As you are well aware, Ethiopia is currently undertaking home-grown economic reforms, and to have an effective reform, the role of the transportation sector is vital.

In this regard the Ethiopian Railway Corporation (ERC) is planning to undertake several initiatives to increase the country's railway transport infrastructure networks.

In addition, the need of public transport is increasing and thus the sustainable development of road, rail and air has been going on in different perspectives. The development is much needed for the citizens of the country and the improvement of trade as well.

Ethiopian Railway Corporation (ERC) would be glad to support Bricsa Consulting for planning to undertake this important conference in Addis Ababa to witness the reforms being undertaken and to share exchange of ideas and fruitful discussions with public and private sector experts who are part of the ongoing development from Ethiopia as well as other African countries and rest of the world.

Looking forward to welcome you in Addis Ababa!

Sentayehu Weldemichael (Ph.D.)
Chief Executive Officer
